👤 Profile

I am an IMCA student at LJ University with a strong interest in full-stack web development. I have worked on projects using the MERN stack, Python, and the Laravel framework. I enjoy building real-time applications and integrating services like Stripe and Twilio. Always eager to learn and take on new development challenges.

Communication, Collaboration, Problem Solving

📁 Projects

Full Stack-Grocery-Store

MernStack

- Built a fully responsive e-commerce app with user auth, product management, cart, and Stripe payments.
- Implemented secure JWT auth and efficient product filtering logic.

UI/UX Social Media Post Layout

Figma

- Designed a responsive post template for major platforms ensuring consistency and visual appeal.

Laravel-organic Agro

- Created a scalable e-commerce site with Laravel MVC, user-friendly cart, and order handling.

AI/ML Real-Time Speech Emotion Detection

- Built a real-time speech-based emotion detector using LSTM and FlaskSocketIO with emotion-based recommendations.
